UNICAL SBW

Mixture of dicarboxylic acids for deliming process

TYPICAL PROPERTIES

Appearance	: White powder
Active Substance	: $96 \pm 1\%$
pH (10% sol.)	: 1.0 ± 0.5
Ionic Character	: Anionic

DESCRIPTION

UNICAL SBW can be used for different purposes. It is preferred in deliming and as a pickling agent. It is very effective for the removal of lime and alkalinity, hence, deliming process is fast and homogenous through the cross-section of the pelt. **UNICAL SBW** is preferred as pickling acid due to its non-swelling property and shortens the pickling period and it also effects a better chrome exhaustion/fixation.

APPLICATION

Recommended quantity in deliming for sheepskins is 1.0 - 2.0%; for hides is 1.5 - 2.5% on pelt weights. In the pickling of sheepskins 2.0 - 2.5% is sufficient under normal conditions.

PACKAGING, STORAGE AND SHELF LIFE

Available in 25 kg bags. Store in accordance with local regulations. Keep the package closed when not in use. Store in a dry place and protect from direct sunlight. Shelf life is 24 months from the date of manufacture when stored in its original package. For more information see Safety Data Sheet.
